SUMMARY

This report asks Boston Town Area Committee (BTAC) to consider making available for this year £8,000 of funding for additional floral displays to be placed in Boston's town centre over the summer. It is recommended that whilst working alongside the Boston in Bloom Partnership eight tiered planters are placed in the Market Place, subject to permission from Lincolnshire County Council.

These tiered planters will provide an immediate floral impact, building on the Council's existing annual bedding programme, making the town centre more attractive for residents and visitors to the area. The intention is to help support a vibrant town centre economy by further demonstrating what a wonderful space the market place/town centre is. It is intended that should this be supported and seen to be successful, in future years sponsorship and other ways to fund an uplift in the town's floral displays will be explored.

RECOMMENDATIONS

To approve funding of £8,000 for additional floral displays in Boston's Market Place.

REASONS FOR RECOMMENDATIONS

To improve the appearance of the Market Place for visitors and residents.

OTHER OPTIONS CONSIDERED

Continue with the annual programme of summer bedding, with no additional floral displays.

1. BACKGROUND

- 1.1** The Council's annual summer bedding programme provides annual bedding plants for 65 barrier baskets at the War Memorial, Artillery Row, Bargate Green and the Cattle Market Car Park, with around 36 hanging baskets throughout the town centre including Market Place, West Street, Straight Bargate, Wide Bargate. Annual bedding is also planted in Central Park, St Botolphs Church, and the Bus Station.
- 1.2** In 2022 additional planters were installed in Bargate and around the Cattle Market Car Park to provide a welcome to visitors coming into the town, and these have been included in the Council's annual bedding programme.
- 1.3** The Council works closely with the Boston in Bloom Partnership, whose volunteers plant containers around the Market Place, in Wide Bargate, and Straight Bargate, and there are additional schemes in Pescod Square, Central Park, and around the Railway Station. The Boston in Bloom Partnership has been successful in achieving successive gold awards for their planting displays for the last seven years.

2. REPORT

- 2.1** The main shopping area in Boston is in and around the Market Place. This report proposes an additional eight tiered planters that can be positioned through the Market Place to provide an immediate floral impact in the town centre area with the highest footfall. This proposal is to help boost and further support the local town centre economy by demonstrating what a wonderful space the Market Place/town centre is, thereby encouraging people to stay, shop and enjoy the town's local hospitality offer.
- 2.2** This report asks BTAC to consider funding these additional planters for summer 2023, whilst their impact on the town centre is monitored, to inform the Council's annual bedding programme for subsequent years. These are tiered floral planters and cost £995 each to hire.
- 2.3** Most of the area in the Market Place is owned by Lincolnshire County Council, and it is important that the placement of any structures in the Market Place does not impede vehicles or pedestrians. LCC has been approached for permission to place additional planters within this area.

- 2.4** It is important that any floral displays work with the programme for Boston in Bloom, to support and enhance the Boston in Bloom Partnership efforts to make Boston look attractive. The Boston in Bloom Partnership therefore will be consulted to ensure that this additional planting scheme complements their existing plans.

3. CONCLUSION

- 3.1** Placing eight tiered floral planters within the Market Place will provide an immediate visual impact in the town centre area for residents and visitors and will support for this year the annual offer provided by the Council, supporting the Boston in Bloom Partnership.
- 3.2** Should the additional floral displays in the market place prove to be successful it will be important for BTAC/the Council to consider with the Boston in Bloom Partnership and other interested parties how funding might be sort to sustain future displays. For example, opportunities for sponsorship etc.
