1.	Framework Housing Association – Service Manager	<p>As the Service Manager for the Framework Services in Boston I was forwarded the Statement of Licencing Policy to review on behalf of Framework.</p> <p>I have read though the policy and there is no particular aspect that I feel I need to feed into the consultation process, but I did identify a possible area for confirmation.</p> <p>Page 2 - there is a change to 29. Challenge 21/challenge 25 schemes which has a strike though “challenge 21”. This is also echoed in the following section – page 29 section 26.8, page 30 section 29 and 29.1 where “challenge 21” is struck though</p> <p>Yet page 15 section 4.4.10 still retains the full statement “challenges 21/25” without a strike though on challenge 21.</p>	4.4.10	This has been retained in error at the time of drafting. It is recommended that “21” is removed from paragraph 4.4.10.
2.	Boston Borough Council – Principal Environmental Health Officer	<p>Having looked at the changes I have no real concerns. However I am not sure what item 5.10 really means – ‘<i>The Licensing Authority acknowledges that the views of vocal minorities should not be allowed to predominate over the general interest of the community</i>’. I am concerned this could be interpreted as one residential neighbour who is suffering ASB, noise or other such issues may be disregarded where the source</p>	5.10	This was raised by members at the meeting on 11 August 2020 and again in this response, therefore there are concerns is ambiguous. It is therefore recommended this paragraph is removed from the Statement of Licensing Policy.

		premises for example serves the wider community, for example a village hall or community centre. The neighbour may well be a minority and vocal but may also be justified in their complaint.
