

Lincolnshire Police Consultation Response:

Hi Peter

Fran is away from the office today so she has asked I send you some comments direct.

PS Odlin visited the encampment most days and kept me updated. Although sec 61 CJPOA was considered by myself, the legal process had already been commenced by BBC, so that, together with balancing the needs of the encampment during covid 19 and considering the level of criminality reported, I felt it proportionate to let the BBC action run as it would provide suitable time for the encampment to make preparations. I noted that the encampment reported the arson as the victims. The NPT followed up many of the other reports.

In relation to the NAVCIS, the visit was close to the date the encampment were expected to leave and following some threats made I did feel that we would be starting a conflict with a group we had been working with, close to a resolution and didn't want to jeopardise that resolution.

Regards

Insp 1189 Nick Waters

South Holland Neighbourhood Policing Team

BSH Taser SPOC.
