## OTHER OPTIONS CONSIDERED

Do nothing

### 1. BACKGROUND

- 1.1 Members will be familiar with the commitment made in the Partnership Annual Delivery Plan to procure a joint environmental crime enforcement contract. This work is almost complete and the new contract will be mobilised early in the new year.
- 1.2 Members may also be aware from their own experiences and from national reporting, that there has been an increase in incidents of environmental crime such as fly-tipping on a local and national level.
- 1.3 This draft strategy has been developed in response to escalating issues with environmental crime, and to support the implementation of the new enforcement contract.

### 2. REPORT

- 2.1 The Partnership Strategy demonstrates the commitment and ambition of each Council to tackling Littering and Fly-tipping. It promotes responsibility among residents, businesses, and visitors, whilst also recognising that infrastructure, education and enforcement are critical tools to support this.
- 2.2 The overarching objective of the Partnership, as stated within the Strategy, is to reduce fly-tipping and littering. We will achieve this by:
  - **Educating** and engaging with the public and businesses to ensure it is seen as socially unacceptable
  - **Enabling** people to dispose of their waste responsibly
  - Ensuring **enforcement** is used effectively and appropriately

In order to do this, we will:

- Collect data and intelligence to understand problem areas
  - Work in partnership with others including other agencies and community groups
  - Use effective communications to ensure the public and businesses understand the legal requirements
  - Continue to improve our waste collection and infrastructure
- 2.3 The Strategy promotes the use of enforcement and explains where this action may be appropriate, how evidence may be collated, and the sanctions available.
  - 2.4 The Strategy also emphasises the need for education and engagement with residents, visitors and businesses. This is important to help prevent crime from occurring and ensure that everyone is aware of their responsibilities and potential consequences of their actions.

- 2.5 A communications strategy has been developed across the Partnership to support implementation of this strategy and the enforcement contract, which includes press releases, local bulletins, social media, posters and leaflets and signage in hot spot areas.

### **3. CONCLUSION**

- 3.1 Members of the Committee are requested to consider and provide feedback on the draft Strategy, prior to wider consultation being undertaken with external partners.
- 3.2 The Strategy will then be considered by Cabinet in the new year with a recommendation that it is approved and adopted.

### **EXPECTED BENEFITS TO THE PARTNERSHIP**

This is a Partnership wide strategy which aligns the principals and commitment to tackling littering and fly-tipping across the three Councils. It builds on some of the positive work already seen in Boston to tackle environmental crime in recent years.

The Strategy will support a Partnership wide environmental crime enforcement contract which promotes consistency and transparency in enforcement activities, whilst recognising the sovereignty of each Council in setting local policy and fines.

The shared communications strategy is an efficient way of promoting education across the sub-region and will be tailored to suit the needs of each area as required.
