<p>Commentary: Performance is slightly lower than the target but significantly higher than the East Midlands average. The service is seeing a high number of evictions by family and friends and as from late September is trialling new options to try and obtain additional time to prevent homelessness. At present it is too early to gauge whether this will be successful.</p>

Commentary: Q2 = 96.52%. Improvement in year to date of 5.69% from Q1. Continuation of call back in queue utilised in Q2 with 442 (4.29% of calls). The service has supported delivery of transferring Boston across to ring central in Q2. Through system insight reporting Q2 59.24% customers have digital capabilities. Q2 saw 11.82% chase enquires for BBC Services, and an answer rate of 27.46% when Customer Contact are trying to transfer calls/seek advice from the back-office. This reported data will be shared with services in more detail, to support the reduction of avoidable contact.

<p>Commentary: We have seen a growing trend in the last quarter of premises who have seen a significant reduction in their rating. This has led to the 1/2 percentage point drop. We are hopeful that as a result of sustained education, engagement and enforcement of the premises with issues we can see an improvement.</p>

Commentary: The total number of FPNs issued in Q2 are lower than Q1 due to a temporary staffing shortage (Kingdom LA Support). There has also been an increased focus on enviro-crimes in addition to littering including fly-tipping and commercial duty of care. Payment rates will fluctuate and does not directly correlate to the FPNs issued that quarter. The overall payment rate is in line with the other authorities.

Commentary: Due to the impact of the revaluation and changes in reliefs that took effect from 1 April 2023, previous years monthly performance is no longer comparable and therefore forecasting is challenging. In order to forecast performance for the remainder of the year we have taken into account current performance and amounts hat fall due and payable from ratepayers over the remainder of the financial year. We continue to take recovery action in line with our robust procedures but anticipate ongoing collection and recovery challenges given the current economic climate.

Combined HB/CTS Speed of Processing – Changes (Year to Date for 22/23, in quarter for 23/24)	53.11%	78.11%	93.72%	26.98%	52.27%	53.11%		
--	--------	--------	--------	--------	--------	--------	--	--

Commentary: We are currently 0.84% lower than September 2022. Our profiled targets for the remainder of the year are based on last year's actual performance. The shortfall relates to an increase in the amounts due in the second half of the year both through customers statutory instalments and pre-enforcement payment arrangements. We anticipate ongoing collection and recovery challenges given the current economic climate.

Commentary: Given the position at the end of Q2, the end of year forecast remains below the annual income target. Actual income year to date compares to £398,388 Apr-Sept 2022/23 and £367,852 2021/22. A full staffing compliment is now in place and new ticket machines will be installed in November, whilst we are seeing a slight increase in enforcement income as a result, a review of fees and charges will not be effected in year so forecast income to year end will almost certainly be c. £200,000 below the budget target set for 2023/24.
