**This Report refers to a key element of the Council's Governance Framework and represents an important contribution to the evidence trail in support of the Annual Governance Statement 2025/26.**

## **Recommendations**

It is recommended that Members of the Audit and Governance Committee receive and review the contents of the report attached at **Appendix 1**.

## **Reasons for Recommendations**

The CIPFA Code of Practice for Treasury Management suggests that members should be informed of Treasury Management activities at least quarterly. This report therefore ensures this Council is embracing Best Practice in accordance with CIPFA's revised Code of Practice.

## **Other Options Considered**

As this is an update report there are no other further options for consideration.

## **1. Background**

- 1.1** The Council operates a balanced budget, which broadly means cash raised during the year will meet its cash expenditure. Part of the treasury management operations ensure this cash flow is adequately planned, with surplus monies being invested in low risk counterparties, providing adequate liquidity initially before considering optimising investment return.
- 1.2** The second main function of the treasury management service is the funding of the Council's capital programme. The capital programme provides a guide to the borrowing need of the Council, essentially longer term cash flow planning to ensure the Council can meet its capital spending requirements. This management of longer term cash may involve arranging long or short term loans, or using longer term cash flow surpluses, and on occasion, any existing debt may be restructured to meet Council risk or cost objectives.
- 1.3** Accordingly, treasury management is defined as:  
  
"The management of the local authority's borrowing, investments and cash flows, including its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks".
- 1.4** The risks around investments have always been managed effectively by the Council.

## **2. Report**

- 2.1** This report provides the 2025/26 Quarter 1 update on the Council's "Treasury Management Strategy Statement and Annual Investment Strategy" (**Appendix 1**).

- 2.2** The Chartered Institute of Public Finance and Accountancy (CIPFA) issued the revised Code of Practice for Treasury Management in 2021.
- 2.3** The Code suggests that members should be informed of Treasury Management activities at least quarterly. This report therefore ensures this Council is embracing best practice in accordance with CIPFA's revised Code of Practice.
- 2.4** Sections 2 and 3 of **Appendix 1** provides an economic update for quarter 1 and interest rate forecasts. The expected direction of interest rates for the remainder of the financial year is a reduction in Bank Rate.
- 2.5** Section 4 and 5 of **Appendix 1** provides details of the Council's investments and borrowing on 30 June 2025.
- 2.6** The table below provides an analysis of the net treasury position as at Quarter 1 and the projected outturn for the year:

	<b>2025/26 Budget Quarter 1</b>	<b>2025/26 Actual Quarter 1</b>	<b>2025/26 Variance Quarter 1</b>	<b>2025/26 Annual Budget</b>	<b>2025/26 Forecast Outturn</b>	<b>2025/26 Forecast Variance</b>

On 30 June 2025 there was a favourable variance of £281,601 and the forecast outturn was a favourable variance of £428,778. The liquidation distribution from M&G which is included in these figures will be used to finance a corresponding MRP charge.

- 2.7** Treasury investments achieved an average rate of 5.110% and property fund investments achieved an estimated average rate of 3.457%. The combined rate achieved on all investments was 4.563%.

- 2.8** The higher level of investment income achieved compared to the original budget is due to interest rates in the market being higher than the budgeted return for 2025/26 and balances available for investment being higher due to slippage in the capital programme.
- 2.9** Section 6 provides an update to the Council's prudential and treasury indicators for 2025/26.

### **3. Conclusion**

- 3.1** This report provides an update on treasury management performance to Members to ensure Best Practice is maintained as required by CIPFA Code of Practice for Treasury Management.

The General Power of Competence in the Localism Act 2011 allows Councils a broad freedom in their operations.

Councils have the general power to borrow under Section 1 of the Local Government Act 2003.

The power to invest is set out in the Local Government Act 2003, Section 12, which gives the Council the power to invest for any purpose relevant to its functions under any enactment, or for the purposes of the prudent management of its financial affairs.

The power that allows councils to spend for capital purposes is included in the Local Government Act 2003.

## **Financial**

The financial implications are covered in detail in **Appendix 1** to this report and in section 2 above.

By making the investment criteria relating to financial institutions stringent, the Council receives lower rates of return. The Council therefore aims to strike a balance between risk and reward when considering its portfolio of investments. Treasury Management is a key financial consideration for the Authority especially in respect of its investment returns and Capital Programme.

## **Risk Management**

The Code of Practice sets out the framework for controlling the risks associated with treasury management decisions for borrowing and investing. Ultimately investment and borrowing decisions are made in accordance with the Council's Treasury Management Strategy. The overriding priority is that the security of a deposit takes precedence over a return on investment.

The Prudential and Treasury Indicators control the limits for investing and borrowing, to ensure that any borrowing is affordable and sustainable and long term borrowing is for capital purposes only.

## **Stakeholder / Consultation / Timescales**

The Portfolio Holder for Finance is briefed on treasury performance on a regular basis.

## **Reputation**

The security of investments is the Council's main priority when investing surplus cash.
